

# MELTDOWN™

## TURN RESIDUE INTO REVENUE.

Meltdown™ breaks down your crop residue and returns the nutrients back to your soil faster. Using broadcast application, you simply put Meltdown™ to work in your fields after harvest or in early spring.

### 10 REASONS

### GROWERS WHO TRY MELTDOWN™ USE IT FOR LIFE

1. Returns key nutrients like phosphorus, potassium and carbon to the ground faster, improving soil health and increasing yield potential.
2. Lowers spend on fertilizer.
3. Increases yields.
4. Acts as an affordable soil enhancer that can be easily applied in fall or spring.
5. Diversifies soil makeup – including nutrients it may be deficient in.
6. Releases more carbon for your crop, improving health and performance.
7. Breaks down crop residue naturally, which simplifies ground prep for the upcoming season, even eliminating tillage passes.
8. Makes it less likely tough stalks will damage equipment.
9. Allows better seed singulation, promoting stand optimization and reduces hair pinning.
10. Gives you the benefits of planting a cover crop without the extra work of planting a cover crop.

### HOW TO APPLY MELTDOWN™

1. Recommended dose of 32 ounces per acre.
2. Tank-mix ready and easily added to your existing fall or spring burndown.
3. Effective for all types of crop residue.

### APPLICATION TIPS

1. Ensure air temperatures remain above 40°F for the first 48-72 hours following application.
2. Wait 72 hours post-application of Meltdown™ before performing tillage. We recommend limiting tillage depth to no more than 8 inches for a two-week period after applying Meltdown™.
3. Apply Meltdown™ within 3-5 days after harvesting to accelerate the degradation process.
4. Meltdown™ has a shelf life of 365 days.

**BW FUSION MELTDOWN™**  
TURN RESIDUE INTO REVENUE

**1-0-0**  
**GUARANTEED ANALYSIS:**  
TOTAL NITROGEN (N) ..... 1.0%  
(Based on crop residue breakdown)

**NON-PLANT FOOD INGREDIENTS:** 4.9%  
**MIXTURE OF MICROBIAL STRAINS:** 4.9%  
BACILLUS LICHENI FORMIS ..... 1X10<sup>10</sup> CFU/mL  
BACILLUS SUBTILIS ..... 1X10<sup>10</sup> CFU/mL  
CELLULOMONAS CELLULOSA ..... 1X10<sup>10</sup> CFU/mL  
PSEUDOMONAS HALOARICA ..... 1X10<sup>10</sup> CFU/mL  
BIFIDOBACTERIUM PASTORIS ..... 1X10<sup>10</sup> CFU/mL  
YAROWIA LIPOLYTICA ..... 1X10<sup>10</sup> CFU/mL

**TOLUIC ACIDS (Derived from L-cysteine)** ..... 2.04%  
**HUMIC ACIDS (Derived from L-cysteine)** ..... 0.01%

**OTHER INERT INGREDIENTS:** 91%

**DIRECTIONS FOR USE:**  
For optimum feed value, crop residue digestion,  
RATE: 32 oz./acre  
TIMING: Fall Post Harvest, Spring Pre-Plant  
APPLICATION: Broadcast  
MIXING: Can be applied with 20%, 32% UAN. Best results are achieved with no tillage or post tillage.  
Keep container tightly closed. Store at room temperature or below. DO NOT FREEZE. Keep product out of direct sunlight. Store in a well-ventilated place. For best results, shake before using since settling can occur. If combining with other products, avoid leaving them mixed for extended periods of time. Some chemicals can be detrimental to the microbes. If mixing with other products, it is best to mix right before application (put in tank). Always perform a jar test to ensure compatibility. Dispose of all waste in accordance with local, state, and federal regulations. Dispose of all waste in accordance with local, state, and federal regulations. Counts of the microorganisms can change based on storage time and conditions.

**WARNING**  
KEEP OUT OF REACH OF CHILDREN  
Caution: Irritant. Causes skin irritation. Harmful if swallowed.  
**PRECAUTIONARY STATEMENTS:**  
Avoid breathing dusts/fumes/vapors/spray. Wash skin thoroughly after handling. Do not get inside your eyes. Wear protective clothing to avoid contact with skin and clothes.

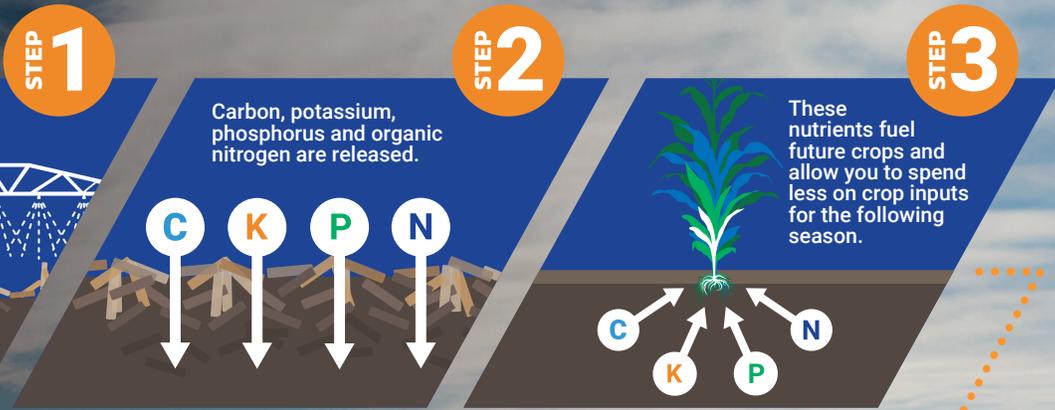

**WARRANTY - CONDITIONS OF SALE:**  
BWA warrants that the product contents of the application specified and is recommended for the purpose stated only when used in accordance with the guidelines provided. EXCEPT AS PROVIDED ABOVE, THERE IS NO OTHER WARRANTY, EXPRESS OR IMPLIED INCLUDING, BUT NOT LIMITED TO, ANY AND ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. ALL SUCH WARRANTIES AND EXPRESS WARRANTIES ARE HEREBY DISCLAIMED. BWA does not warrant, make any application or other conditions of use on behalf of the grower.

# MELTDOWN™

## HOW IT WORKS

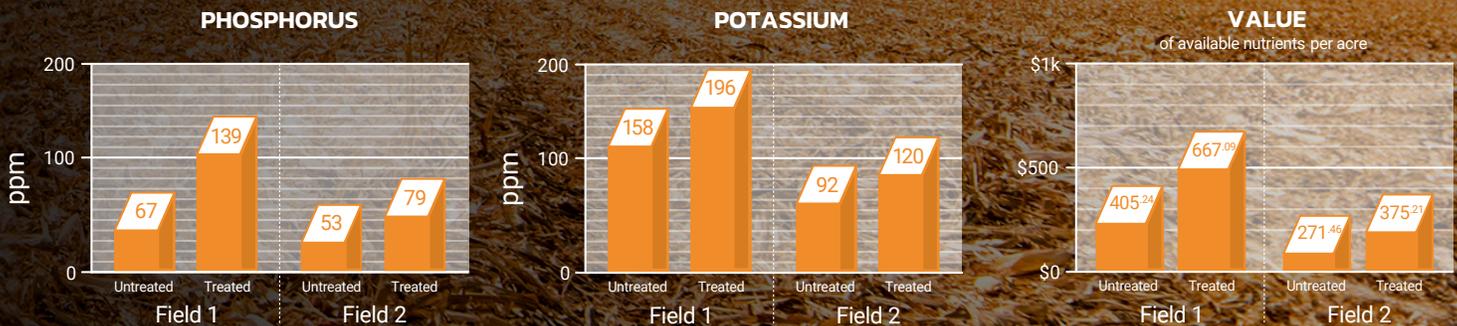

It immediately begins breaking down residue and releasing vital nutrients — phosphorus, potassium and carbon — into the soil. And that means more return on the investment in your crop. You can save \$50 an acre on phosphorus and potassium alone.\*

Your return on investment doesn't end at harvest — it starts with Meltdown™.

## THE NUMBERS SAY EVERYTHING

Farmers have used Meltdown™ on millions of acres. And they've seen a **64% increase in nutrient value per acre**.\*

A study conducted by an independent research firm shows soil analysis of two fields that had areas treated with Meltdown™ and areas that were not. Each sample was evaluated for levels of phosphorous and potassium. Then, a monetary value was calculated for each sample based on the nutrients available. As you can see, some of the nutrients as much as doubled in the areas where Meltdown™ was applied, and the value increased by over 64%.

Contact your RBM or call (888) 429-3874 to learn more about Meltdown.

\*4-Year Trial with BW Fusion Biologicals Proves Positive Impact on P and K Availability (2023).
